"SUB" WARFARE SENDS | ACTIVE BOND DEMAND STOCKS TO LOW LEVELS MARKS LOCAL 'CHANGE

Rails Show Extreme Weakness, Par- Industrial Gain, But Utility Shares ticularly C. P. R.

(By the International News Service.)

New York, Feb. L.—Sinking of additional ships by German submarines off the British coast caused another weak spell in the stock market this afternoon, As a result, the few gains recorded on the early trading were wiped out. Raliroads were conspicuous for their weakness. Sarticularly Camadian Pacific. Final trading was unsettled. The market did not have a distinct trend any time during the day until just at the close when it was downward.

Crucibie, Central Leather and Studebaker distinguished themselves in the

Crucible, Central Leather and Studebaker distinguished themselves in the morning. All were strong. The first-named was under influence of short covering. The second was in the hands of a pool that knows of the large extra dividend soon to be declared. The last named was put up as an experiment to find out whether a following could be obtained in the motors. It could not. Sinking of ships caused another break in the wheat market through the fear that the grain cannot be exported. The

that the grain cannot be exported. The reason for this bullish feeling is that the world's crop of wheat in 1916 was 940,000,000 bushels under the crop of 1915 and 500,000,000 bushels under the average crops for 1912, 1914 and 1915.

NEW YORK CURB MARKET.

New York, Feb. 7.—On the curb market today the cutward aspect was that of calm, but the undercurrent of continued firmness in the war stocks was quite evident. Midvale, United Motors, Sinciair Oll, Aetna Explosives, American Writing Paper, and others reflected the underlying strong current. The cits again were slightly reactionary. There was little of interest among the low-priced mining

NEW YORK PRODUCE.

11/6 -3 47/4 34 6

New York, Feb. 7.—BUTTER—Firm; receipts, 7,815 tuba. Creamery, higher than extras, 55-604; extras, 55-600; 46454; firsts, 375-60; seconds, 55-87.

BGGS—Basier; receipts, 5.351 cases. Fresh-gathered firsts, 475-62; firsts, 455-641; nearby homers, white, fine to fancy, 52-53; do., browns and mixed colors, 465-68.

I ruring the year ended November 30, 1916, established sixteen new lighted aids and fourteen unlighted aids, thirty in all, in Alaskan waters.

Only Hold Own.

as a successor to Mr. Schwab. The fol-

lowing reply was sent, following a thor-ough investigation: "It is very improbable that the government will take over Steel plants and put Schwab out. Procedure likely to be fol-lowed will provide for government con-trol of plants, but not interfere with personnel or disturbance of profits."

Rail mills have taken contracts for 40,e 000 tons of standard Bessemer for ship-ment over the first half of 1918. It is understood that most of this business went United States Steel Corporation at Pittsburgh. The Illinois Steel mills at Pittsburgh. The Illinois Steel Company has booked an order for 10,000 tons for an Eastern Ohio railroad, and interurban roads have closed contracts for 7,000 tons with Chicago mills. Italy has put out inquiries for 2,500 tons of twenty-five-pound rails.

The Iron Trade Review says that at least 500,000 tons of steel now are on rail-road cars or piled along the right of way at the principal Atlantic coast awaiting ships to carry it away to Euro-pean countries. According to estimates in well-informed trade circles, more than 300,000 tons of this amount is for the French government alone French government alone.

Export demand for steel products has ot been cut down by new international complications. Large demands are in the market and some of these, notably for rails, have been inaugurated during the

COTTON MARKETS.

New York, Feb. I.—There was a better tone to the cotton market today after some irregularity. Susiness as a whole was not large, however, and the general situation showed no change.
The opening was a tame affair, with the tone casier and prices I points lower to 3 points higher. The remaining was a tame affair, with the tone casier and prices I points lower to 3 points higher. The period was a point a large time for New Orleans account and by Liverpool, while the buying generally was by commission houses. Trading was small on the call, but later the pressure increased bringing increased activity 194 and lower prices. At the end of the first ten infinites quotations were down 4 to 10 points under the start.

Port receipts for the day were 19,555 bales, continues stocks were 131,255 bales, compared with 24,775 bales a year ago. Exports for the day were 121,255 bales, against 122,555 bales, all to the continent. Clearances for the season to date aggregate 3,513,125 bales, against 122,556 bales for the corresponding period last season.

Spot here was steady, 5 points lower at 18 and

NEW YORK MONEY.

New York, Feb. 7.—Money on call at the Stock Exchange opened at 2½ per cent; high, 3½ per cent; low, 2½ per cent; closed, 2½ per cent. Most of the day's loans were made at 2½ per cent. Time money was firmer in tone, with an in-creased demand, met by a very fair supply. Rates on good mixed collateral were quoted at 3½ to 4 per cent for sixty days, 4 per cent for ninety days and four months, 4 to 4½ per cent for fire and six months.

months.

Morcantile paper was rather dull, most of the investors being uninterested in the market, except at full rates, which in many instances were unacceptable to the sellers. Rates, 4 to 4½ per cent for the best names.

2,600 Willys Overland.... 100 Wisconsin Central. Total sales, 896,320 shares.

Chicago, Feb. I.—The cash grain trade is suffering more and more because of the absence of cars with which to more that commodity. Basiness with which to more that commodity. Basiness of the roads embargies have been placed so that there can be no grain received or shipped.

The May wheat future led in the decline today and at one time it showed a break of nearly 71 cents from the highest point of the morning. Further reports were received of a boat sunk by submarines, which was the chief cause of the weak ness during the last hour of the session. Net losses were shown of 's to 4 cents with the May future the weakest apot of the list.

There were no cash sales of wheat or any other grain at Chicago today. There is little encouragement at the moment for speculative holders.

Under pronounced liquidations by losses in core.

The Safest Investments

Are those that do not fluctuate during dia-turbed conditions of the money or stock markets. First deed of trust notes (final mortgages), well secured on real exists in the District of Columbia, constitute "gli-edge" investments, and do not depend upon the financial responsibility of individuals or corporations for their stability. We can supply such investments in amounts from \$60 upward. Send for booklet, "Concerning Losses and Investments."

DOLLAR EXCHANGE

All foodstuffs and other commodities should be quoted and sold to foreign nations in dollars and cents.

Materials, labor, overhead and taxes are paid for in dollars and cents. Sales should also, therefore, be in dollars and cents. This is the only way that dollar exchange will ever become

the factor in the world's commerce. Every American is interested that dollar exchange gain and maintain a prominent place in international commerce.

With over Three Billion Dollar balance of trade in our favor for the year 1916, the dollar bill of exchange is today selling at a substantial discount in neutral countries.

The purchasing power of the Dollar Bill of exchange even in belligerent countries has greatly decreased, although when converting the dollar bill of exchange into belligerent currencies it brings a premium.

This is due to the fact that the cost of everything in all these belligerent countries has in many instances doubled.

There should be very close co-operation between exporter and importer. The exporter uses steamers to carry goods from the United States; the importer uses the same steamers to bring goods to the United States.

The exporter sells United States commodities abroad; the importer brings foreign commodities to be sold in the United States.

Without exports there would be no imports; and without imports there would be no exports.

Without buying there can be no selling. Exports and imports so vitally affect one another that close co-operation between exporter and importer would bring about a very much larger foreign trade for the United States
